Our company

Propol is a family business which has been on the market since 1993. We specialize in sewing covers, made from high quality leather and fabric, for upholstered furniture. Many years of experience, qualified staff and modern machinery has enabled us to extend the offer of new products.

Propol is a combination of 30 years of tradition with modern sewing technology. Thanks to the high quality of our products, we have gained the trust of our customers and a solid brand in the industry. Since 2007, we have implemented a production management system. We want to be competitive on the market, therefore we constantly improve our processes by purchasing new devices and machines available on the market.

By cooperating with us, you can count on excellent quality and timely execution. We are able to implement any project.

We would like to see you as our business partner.
